

## Research Assistant – Graphic Designer

**Desired Qualification: Diploma in Graphics Design or similar with 1-2 years of experience**

### Role Description

In our research, we design, develop and evaluate different types of technology-based solutions for problems related to maternal and child health, mental health, menstrual health education and similar.

We are looking for a graphic designer who can actively participate in the research by involving in activities such as designing the apps, documents, web-sites etc.

The right candidate must be proficient in Adobe photoshop, Illustrator, sketching, and other designing tools and techniques.

For more details about our research lab, please visit [www.codeslab.io](http://www.codeslab.io)

### Responsibilities

- Design different mobile and web apps.
- Conducting research tasks: interviewing participants, conducting workshops with participants to understand the design requirements and providing design guidelines and design prototypes to other team members.
- Content writing and designing for different publishing material.
